Safeguarding & Wellbeing

Despite the numerous well-recognised benefits of participation in sport, evidence indicates that interpersonal violence (harassment and abuse) occurs in all sports and at all levels. World Rowing believes that it is a fundamental right of all individuals involved with World Rowing to be able to participate in a non-violent, safe and respectful environment. Creating a safe sport environment and safeguarding rowers and other participants in Rowing activities and events is a shared duty and responsibility of everybody who is involved in the sports ecosystem, this includes during events. You

can play a crucial role in preventing interpersonal violence (harassment and abuse) from happening in your team/surroundings, as well as recognise, identify, and report when an athlete or other individual needs help or support.

Be a Safeguarding Role Model. Understand how your behaviour can impact others positively or negatively.

More information about Safeguarding can be found here
